

REMARKS

I. Introduction

In response to the Office Action dated July 26, 2007, Applicants have amended claim 1 to more particularly point out and distinctly claim the subject matter of the invention. Care has been taken to avoid the introduction of new matter. In view of the foregoing amendments and the following remarks, Applicants respectfully submit that all pending claims are in condition for allowance.

II. Claim Rejections Under 35 U.S.C. § 112

Claims 1, 2, 5, and 6 stand rejected under 35 U.S.C. § 112, first paragraph, as allegedly failing to meet the written description requirement. More particularly, the Examiner asserts that the feature “not greater than 150°C” is not supported by the specification. Applicants have amended claim 1 to recite “less than 150°C”. Accordingly, withdrawal of these rejections is respectfully requested.

III. Conclusion

In view of the above amendments and remarks, Applicants submit that this application should be allowed and the case passed to issue. If there are any questions regarding this Amendment or the application in general, a telephone call to the undersigned would be appreciated to expedite the prosecution of the application.
